

## DC voltage output LVDT transducer

Sensitivity, $\pm 10\%$ , $24^\circ\text{C}$ .....	0.394V/mm
Measuring range(mm) .....	0~25.4
Nonlinearity(@50% Stroke).....	<0.15% Max.
Nonlinearity(@100% Stroke).....	<0.25% Max.
Resolution(typical).....	2mV
Repeatability.....	<0.15%

### Electrical

Power voltage.....	12~24 Vdc
Input current.....	10mA Max.
Output voltage.....	0~10V
Output current.....	5mA Max.
Frequency range(-3dB Max.).....	200Hz
Insulation resistance(@500Vdc).....	>10 M $\Omega$

### Environmental

Temperature range.....	-25 to $85^\circ\text{C}$
Temp. coefficient of sensitivity.....	0.05%/ $^\circ\text{C}$ Max.
Operation humidity.....	<85% R.H
Shock limit.....	250 g peak
IEC 60529 rating.....	IP65

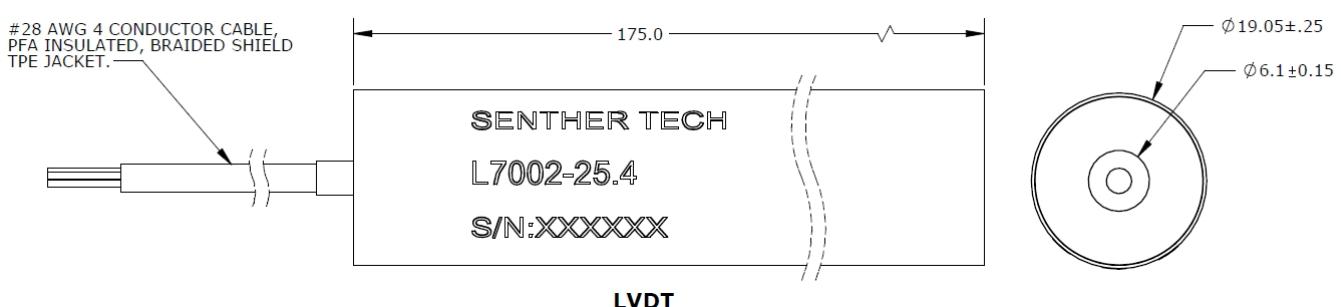

### Physical

Sensing element.....	LVDT contactless
Output cable(28# AWG).....	PFA Insulation
Case material.....	Stainless steel

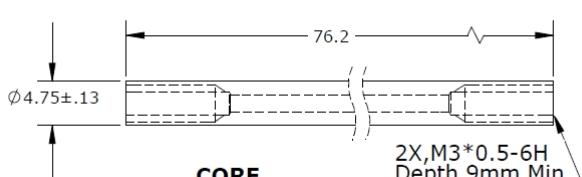

### Accessories

Calibration certificate

Core: mounting hole is M3 thread both sides

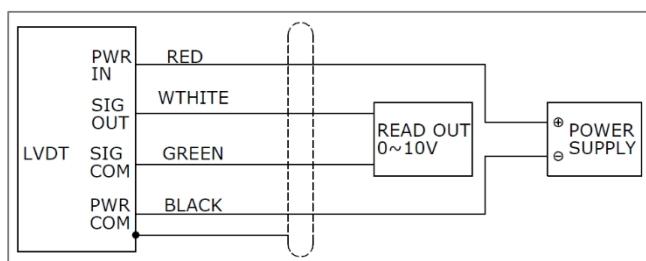

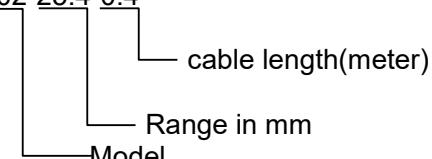

LVDT

### Ordering Information

L7002-25.4-0.4

Schematic
